

Referring Students to the Highly Capable Program

Do you know of a child that you believe to be intellectually gifted?

Gifted children have unique academic, social, and emotional needs and need to be identified to receive services.

Please pick up a referral packet form from the office at your child's school.

When considering a student for this program, please note:

- Students need to be in grades K-12.
- We think in terms of behaviors that are **comparatively rare, considerably early, and significantly more advanced.**
- The referral team will look at your student's standardized test scores, MAP score, information provided by their teacher, and other data. The Cognitive Abilities Test (CogAT may also be administered.)
- In addition, the person making the referral will need to complete forms that identify creative and behavioral traits of the student.

If you have any questions please contact:
